

HISTORY & LEGACY

Founded in 1887, MTH Industries has shaped Chicago's skyline for over 135 years, blending time-honored expertise with cutting-edge innovation. From the original windows of the Field Museum to the Skydeck at Willis Tower and Apple's riverfront flagship, MTH's work bridges past and present. Today, the company continues to define excellence through precision craftsmanship and an enduring commitment to building the city's architectural future.

MISSION & VALUES

Driven by craftsmanship, innovation, and reliability, every project reflects our commitment to detail, safety, and delivering lasting value to our clients and communities we live and serve in.

Core Capabilities

- Structural steel & miscellaneous metals
- Glass & glazing systems
- Architectural features, ornamental metals, and canopies
- Building services
- Underlayment, epoxy, and decorative flooring solutions

WHO WE ARE

At the heart of MTH Industries is a team that brings deep expertise, strategic foresight, and a relentless commitment to excellence.

• **Edwin Carey, President & CEO**

Edwin Carey, is a seasoned financial executive with over 30 years of leadership experience across construction, distribution, healthcare, and hospitality. He is known for driving turnarounds, strengthening financial systems, and developing high-performing teams that support long-term organizational growth. His expertise in risk management, financial reporting, and process improvement keeps MTH strong, efficient, and positioned for continued success.

• **Edward Wang, Corporate Controller**

Edward Wang combines analytical precision with strategic foresight to strengthen the company's financial foundation. With over a decade of cross-industry experience, he oversees MTH's accounting operations and implements systems that enhance efficiency, accuracy, and insight across the organization.

• **Gary Naughton, Director of Glazing Operations**

Gary Naughton brings two decades of experience delivering complex, multi-million-dollar construction projects with precision, efficiency, and strong client communication. Formerly a Senior Project Manager overseeing \$12M in active work, he is recognized for his strategic leadership, design-phase insight, and proactive problem-solving.

• **Maury Rastegari, Director of Operations and Sales**

Maury Rastegari is a civil engineer with a master's in Construction Engineering and Management and experience across major infrastructure and specialty trade projects. Known for collaborative leadership and clear communication, he delivers high-quality, solutions-driven results for clients.

• **Pamela Einoder, Director of Service Operations**

Pamela Einoder brings over 15 years of expertise in facility management and operations. She leads with a people-first approach and ensures Chicago's most iconic buildings run seamlessly through careful oversight of complex projects.

• **Brenden Kurtz, Director of Underlayment Operations**

Brenden Kurtz brings more than 20 years of expertise in concrete and flooring systems. From hands-on foundation work to division leadership, he delivers technical mastery and client-focused precision across Chicago's most demanding flooring projects.
